

Title: **Help Document: Block Unwanted Calls**  
Author: Ralph Castaneda  
Document Creation Date: 4/6/15

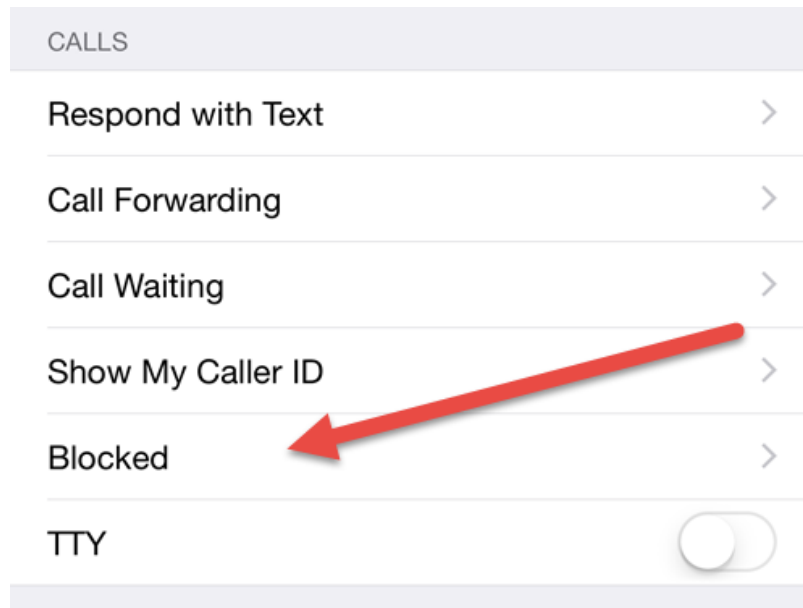

Unwanted calls can be blocked on the iPhone by making some settings changes. To access this feature, tap on the “Settings” icon:

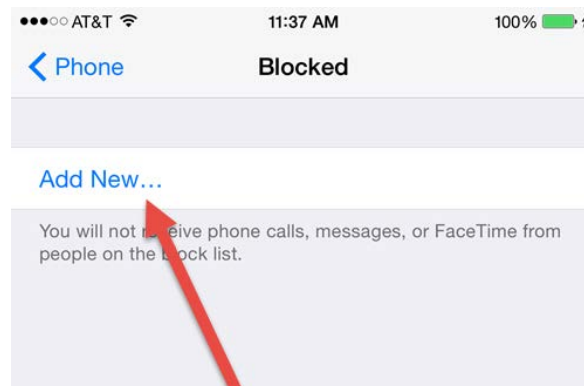

Then scroll down until you see the “Phone” icon. Tap on it:

Find the “Blocked” section and tap on it:

Tap on “Add New...” to add a phone number to the list. This will block all texts, phone calls and FaceTime sessions.

For further information about this feature, refer to the Apple Help Document available at this link:
